

**Marshalling Policies – No Marshalling Yard
World's Fair Exhibition Hall****Marshalling Move-In/Out Procedures**

We have the systems below in place to help ensure a steady flow of traffic at the Knoxville Convention Center and the World's Fair Exhibition Hall and that emergency vehicles are able to access the area, if needed. Thank you in advance for your patience, cooperation and understanding. There are only two dock bays at the WFEH so please be patient.

Move-In:

Each vehicle may report to the World's Fair Exhibition Hall during their designated move-in time or window. No vehicles will be allowed to enter the Venue's loading dock without first checking-in with the Venue Marshalling Guard at the entrance. They will then be directed to a location to park their vehicle for unloading. Exhibitors may be directed to a specific location to ensure traffic can continue to move through the area.

Please Note: Vehicles may not remain parked at the Venue after unloading. They will need to be moved to the designated parking area or to one of the parking locations around Knoxville.

Move-Out:

Once booth/space is completely packed, an event may require you to pick-up a load-out pass from the Show Office/Manager located at the Venue. After receiving the pass, exhibitors may return to pick-up their vehicles and return to the Venue to load their vehicles during their designated move-out time or window. Booths must be completely packed prior to the exhibitor vehicle being moved to the World's Fair Exhibition Hall. Like with move-in, exhibitor vehicles will be directed to their parking space by the Venue Marshalling Guard at the entrance or may be directed to a specific location to ensure continued traffic flow through the area.

Thank you and welcome to Knoxville!
